**THE  
DETAILS**

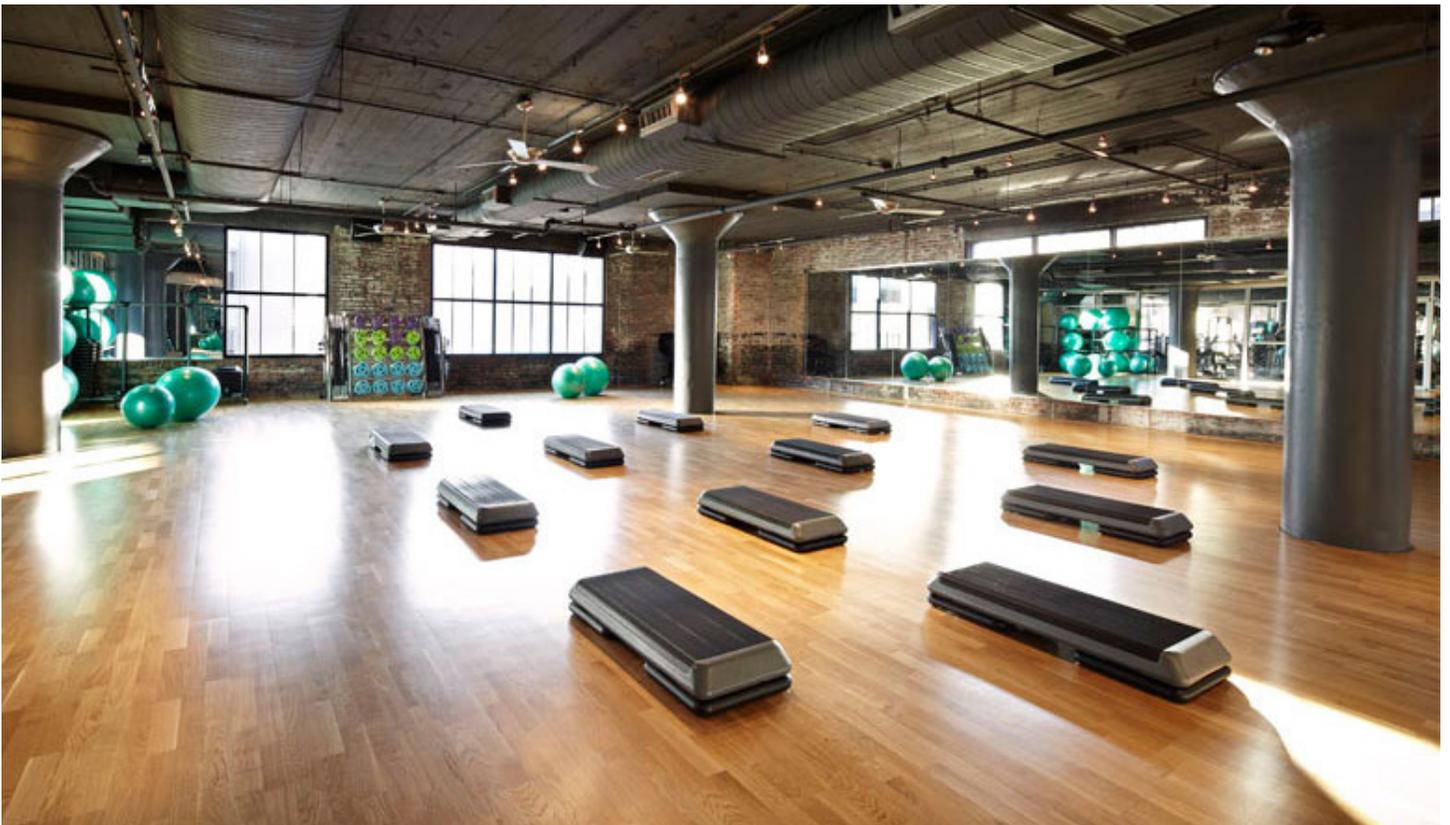

## THE BASICS

The Grid Click Wood System is a low profile, floating sports flooring system, designed for installations over all types of flat subfloors. This Click system is ideal for renovation projects, or when the finished floor height must be kept to an absolute minimum.

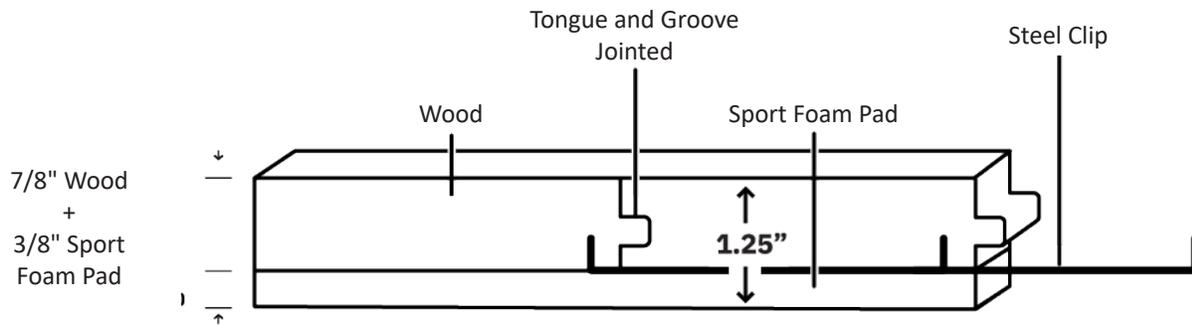

1. Grid Clickwood Flooring
2. Clips
3. Foam Underlayment
4. Header Joint Adhesive
5. 12mm x 12mm Expansion Strips
6. Expansion Gap at Wall

Grid Wood is engineered to perform with beauty. It is a portable system that boasts a 3/8" sport foam shock pad and top layer of solid 7/8" thick Beech wood. Offered in a total system thickness of 1 1/4" thick with 8 colors including a Natural finish and 7 stain options. With Grid's innovative finishing technology, the factory applied finish is 3x stronger than any field applied finish.

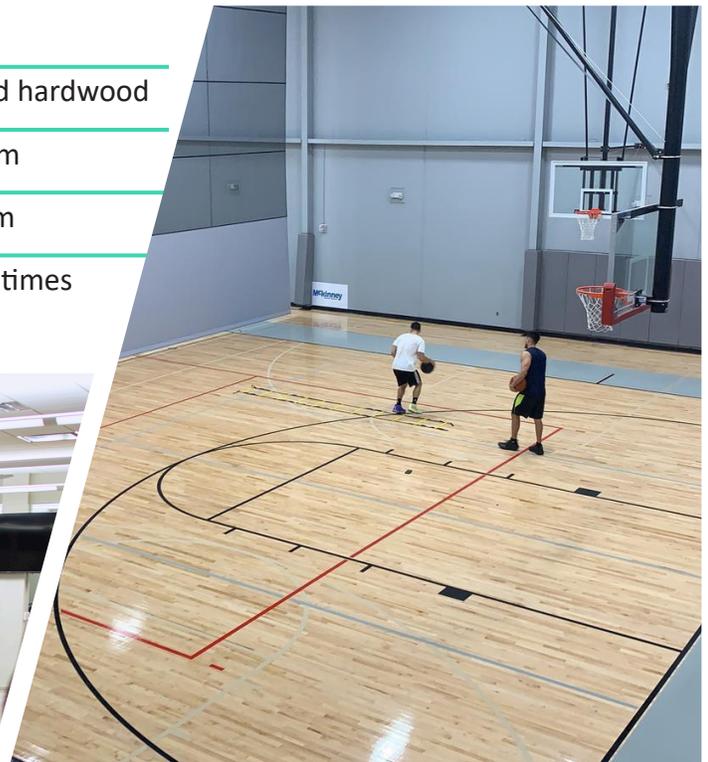

# PRODUCT SPECS

The 7/8" (22mm) solid hardwood floor boards are joined together with Steel Clips, which allow for unique independent floor board flexing. The floor floats over a 3/8" (10mm) performance foam underlay for maximum resilience

<b>Total floor system thickness</b>	1 1/4" (32 mm)
<b>Hardwood type</b>	Prefinished 7/8" (22mm) solid hardwood
<b>System construction</b>	Floating floor system
<b>Underlayment</b>	10 mm Sports Foam
<b>Sanding and re-sealing</b>	Yes, to bare wood 8-10 times

<b>Shock absorption</b>	46%
<b>Vertical deformation</b>	2.4 mm
<b>Ball bounce</b>	98%
<b>Friction</b>	~85
<b>Rolling Load</b>	2500 N <sup>1</sup>
<b>Point load</b>	400 N ~ 400kgs <sup>2</sup>
